- Javier Vergara (Scrum Master)

Introduction

The purpose of this document is to provide a summary of the Sprint Review held on June 27th, 2023. The sprint review is an essential Scrum event that provides an opportunity for the development team to demonstrate the work completed during the sprint to the client and gather valuable feedback.

Sprint goals. -

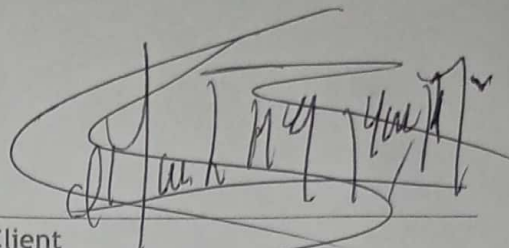

- Completing the admin view for data visualization and modification.
- Giving independence to the client of using the database provided for the system.
- Refining the interface of the admin view for a more user-friendly experience.
- Login and authentication system
- Approvement of the dog walkers and dog owners' views.
- Deployment of the system for this partial progress.

Feedback. -

- Not allow to delete dog walker until it doesn't have dog assigned.
- Add new columns to dog walker: address, link of address, photo, and type of blood.
- Allow administrator to re-establish password of users to predetermined value.
- Add new columns to client: ID, email, and link of address.
- Add a counter of all walks done by the company to certain dog.
- Add a counter of all walks done by certain dog walker to certain dog.
- Auto generate user for client and dog walker.
- Allow new locations when creating clients.
- Corrections on client view when trying to check dog walker assigned to dog.
